To keep track of team members

Public memberTeamNUll

Type : [string](#)

Default value : ""

Defined in [src/app/services/global-variable.service.ts:19](#)

add in the position where there is a null team member

```
import { Injectable } from '@angular/core';

/**
 * Globals variables
 */
@Injectable({
  providedIn: 'root'
})

export class GlobalVariableService {

  /**
   * To keep track of team members
   */
  public countTeamMembers: number = 0;
  /**
   * add in the position where there is a null team member
   */
}
```

```
*/  
public memberTeamNull: string = "";  
/**  
 * Constructor  
 */  
constructor() { }
```
